

THE HELP GROUP LEARNING CENTER

preparing homeschoolers for success

2019 Fall Schedule—Afterschool Enrichment

Session One September 16 through October 10

STEM!

Grades 1-3

Mondays/Wednesdays | 3:30pm -5:00pm

Discover the amazing world of STEM! Our young scientists will learn all about Science, Technology, Engineering and Math in this exciting hands-on course. Our young scientists will learn all about science, technology, engineering and math by exploring concepts through fun and engaging projects, such as coding and rocketry. Students learn through exploration, make connections beyond the classroom, and apply them to the real world. Get your student started on STEM today in this awesome and educational class!

Robotics

Grades 4-8

Mondays/Wednesdays 3:30pm -5:00pm

Learn how to build, program, design, and invent using the LEGO® Mindstorm Robotics System. Students explore hands-on programs that focus on gears, motors, engineering, and building while discovering the amazing world of robotics. Basic STEM concepts plus a big dose of imagination leads to creative problem-solving, critical thinking, and team-building skills.

3D Animation

Grades 6-8

Tuesdays/Thursdays 3:30pm -5:00pm

Computer animation is one of the most in demand career fields with talented designers working on everything from animated films and television series to video games and motion graphics. Students immerse themselves into the world of 3D Animation and Design using Autodesk Maya, a professional level software used by both the movie and video game industries. Start learning modeling of basic rigid shapes and progress into designing, modeling, rigging, and texturing their own in-game character! Progress from making a ball bounce to giving a character their own signature dance moves!

If interested in taking afterschool classes, please contact: Dr. Lisa Reid: 949.339.3880 | LReid@thehelpgroup.org
